

TOBACCO LIGHTENS  
HARDSHIPS OF WAR

Sherman's Words Softened by  
Smokes, Soldier Writes  
Home.

## ANIMALS HELPING FUND

Costume Parade for 61st Street  
Neighborhood Party Sat-  
urday Night.

Popping out of some simple words of thanks for tobacco sent to them by the Sun Tobacco Fund are hints by the soldiers, writing in the beginning of the last week of September, that there was to be expected from the enemy a false propaganda. The postal cards sent back by our heroic protectors are of course censored, often remorselessly, but a word or two that is significant occasionally gets by.

"This war would sure be all Sherman said was if we could not smoke, and the packages of smokes just received (September 17) will help to shorten it for time goes by fast when we can smoke. Like most of the boys I am looking to the time when we will start home, but don't believe all heart, for we will be here some time yet."

The writer of the card is Corporal A. Dowd of Battery A, 121st H. F. A. Bert Walton, a sincere Sun fan, whose recent list of \$100 was recorded this week, is the recipient of this card from Sergeant W. F. Meakins, Company F, 10th Engineers. "Kind Bert," the caption of cigarettes which you sent through the Sun Tobacco Fund was distributed among my platoon, the first and only of our company. Needless to say we all enjoyed the smokes immensely and the boys appreciate the kindness. Let us hear from you, Bert. Our post office is A. P. O. 724. Best wishes from the First Platoon."

Always Ready to Fight.  
One of the most recently issued cards is this from Sergeant Donald E. Edgar of Seventeenth Company, Sixth Marine, who writes to THE SUN: "Your generous gift of tobacco was and is greatly appreciated by the members of the marine guard doing duty at this camp. We have been in the thick of it and soon will be again. Among the friends of THE SUN smoke."

FOOD RULING BRINGS  
LABOR COMPLAINTS

Workers Protest Limited Meals  
Are Accompanied by No  
Price Reductions.

## CHARGES RISE STEADILY

Movement Under Way to Put  
Curb on Restaurateurs  
and Caterers.

Special Despatch to The Sun.  
WASHINGTON, Oct. 16.—Complaints of the most pronounced sort have been received from all parts of the country in the last day or two against the twelve "general orders" which Food Administration Hoover will put into effect next week as a war measure in connection with restaurants and public dining rooms.

The objections come chiefly from labor representatives and labor unions and are based on the fact that Mr. Hoover has not taken steps which will curb and restrict prices for foodstuffs under his new regulations.

The assertion is made that under such curtailment in the past prices have been raised in corresponding measure—as the loaf in the doughnut is larger the price is larger. Mr. Hoover's twelve general orders leave the prices largely to the conscience of the restaurant proprietors.

Prices for food that may be charged by caterers and restaurateurs are left to the discretion of Mr. Hoover, and the quantity of the food and the manner of its service are definitely curtailed and restricted.

Garnitures are eliminated from many dishes without provision for a corresponding reduction in the prices.

The amount of butter and cheese that can be served to one person is limited to one-half ounce of each, although the charge in virtually all eating places remains unchanged for these edibles.

Sugar is limited to a single teaspoonful to the meal, although Mr. Hoover said on his return from France and England that he did not expect to increase the limitations on sugar and that virtually all restrictions would be removed on January 1.

How Foodstuffs Have Scaled.

Figures on the cost of foodstuffs prepared by the Bureau of Labor Statistics in connection with the war adjustment board of the Emergency Fleet Corporation, with prices in 1914 accepted as a basis of 100 per cent, show results in various cities of the country as follows:

1914. 1915. 1916. 1917. 1918.  
Portland, Me., 1.00 1.15 1.30 1.45 1.60  
Boston, 1.00 1.15 1.30 1.45 1.60  
Detroit, 1.00 1.15 1.30 1.45 1.60  
New York, 1.00 1.15 1.30 1.45 1.60  
St. Paul, 1.00 1.15 1.30 1.45 1.60

The statistics of the bureau for the last two years cover the period of existence of the Food Administration.

Officials of the labor organizations here have taken up the question of additional restrictions on food consumption under consideration and are preparing to urge measures on the part of Mr. Hoover or the Government agency to restrict prices to the consumers in each case where curtailments and limitations are put into effect.

The office of the Food Administration it was said to-day that no changes will be made in the twelve general orders as a result of the protests that have been sent to Mr. Hoover and other Government officials.

3 PROBABLY LOST ON AMERICA.

\$1,000,000 in Sugar Also Went Down With Ship.

A sugar cargo, estimated to be worth \$1,000,000, was aboard the transport American when she settled into the water at the mouth of the Hudson River to-day. It was said yesterday that the sugar probably would be a total loss. Army and navy officials investigating the accident have said that the vessel can be quickly raised.

No further information came to the office concerning two sailors and a soldier who have not been reported as commanding officers. It is believed that all three were drowned.

A number of men who were on board when the vessel went down are expected to be rescued by the Army Intelligence officers and military police. No one was held as the result of these incidents. The officers paid particular attention to the theory that water came through the lower port holes when the vessel listed as the result of uneven loading of coal.
